What do you understand about the work and finish line?

I totally understand what I have to do for work and what my finish line would be.

What will you contribute? Name a task or useful capability.

I have contributed to make artwork for some parts of certain assignments in my team.

What needs research, support or practice?

I still need to learn how to properly code for my team's work.

Your available work times and preferred contact method: Discord, email, text, classroom or other. Keep private addresses/numbers outside public exports.

Preferred contact: Classroom

List your project tools and why you need them.

I need Unity and assets to insert into my game project.

Required: name the AI you will use, its project task and how you will verify its output. Use course-provided/shared or approved local access if needed; no personal or paid AI account is required.

AI: Chatgpt

Task: It would help me figure out what set of code should be set.

Verification: I would insert the code into visual studio and see what happens. If something is not working, I'll check on the code to see what the problem is.
